

JEREMY DUTCHER

Senior Frontend Developer

PROFESSIONAL SUMMARY

Senior Frontend Developer with experience in designing, building, and scaling various types of web platforms, UIs, APIs, and cloud-based applications. I have primarily worked in Ad Agencies and Ad Serving, garnishing admiration and respect from peers and clients alike. I have worked on both sides of the stack, but I am primarily frontend focused. Looking for new opportunities.

EMPLOYMENT HISTORY

SENIOR FRONTEND DEVELOPER

Jun 2023 - Aug 2025

AKQA

Remote (PST)

- ♦ Designed and Developed an internal authoring tool for Apple Inc. using TypeScript, React, and proprietary node packages.
- ♦ Implemented end-to-end testing with Playwright, causing a 15% decrease in bugs reported during the QA process.
- ♦ Advocated for and prototyped for QA Jenkins pipeline / environment, which led to implementation and reduction of overall testing / QA time by 1-2 days.

SENIOR DEVELOPER

Jun 2021 - Dec 2022

Craft Worldwide

Remote (EST)

- ♦ Developed McCann websites, micro-sites, and internal tools.
- ♦ Designed and Developed a Creative Banner template system in Gulp, Nodejs, Sass, and GSAP. The project effectively streamlined the setup and implementation for various banner projects. The standardization of the code and export process, allowed for multiple projects to be worked on by multiple developers, with little-to-no ramp up time. This initiative reduced the average amount of time to turn around a standard banner campaign from 7 to 3 days.
- ♦ Scoped projects, created tickets, and managed client communication.

TECH LEAD | PRODUCT OWNER

Jun 2016 - Feb 2020

Flashtalking Inc

Leeds, UK / Remote

- ♦ Designed and Developed Ad-Tag generation and delivery system, using Javascript, SpringBoot, S.Q.S., MyBatis, MySQL. System output increased by 30%, deliverable payload size reduced significantly, as well as code quality and readability improving in unquantifiable amounts.
- ♦ Implemented end-to-end testing with Cypress.
- ♦ Implemented internal dashboard endpoints in SpringBoot, MySQL, Docker
- ♦ Maintained previous system(s) written in Javascript, PHP, MySQL, Docker, AWS
- ♦ Led Agile planning and mentored junior developers.

SENIOR CREATIVE DEVELOPER

Jan 2014 - Jun 2016

Flashtalking Inc

New York City

- ♦ Developed highly complex Rich Media Banners in the Flashtalking Platform, using Flash / AS3, GSAP, and HTML5
- ♦ Worked side-by-side with Backend and Strategy teams to architect Trending Engines used in the creation of DCO.
- ♦ Implemented team-wide Github workflow, which increased code quality and standardized project format structure, enabling the onboarding of new team members and freelancers at a rapid speed.

SKILLS

Javascript, Node.js, TypeScript, React, Wordpress, Nextjs, Java, AWS, Docker, End-to-End Testing, PHP, Webflow.
